

ECO-CLEAN™

Automatic Parts & Accessories Cleaning System

FEATURES

- Automates and simplifies one of the least-desirable aspects of the screen printing process
- Recirculates screen-cleaning chemicals to reduce environmental impact and lower operating costs
- Stainless-steel construction ensures long life and minimal maintenance

M&R's Eco-Clean greatly simplifies the tedious process of cleaning squeegee holders, floodbars, parts, accessories, ink buckets, and almost anything else that will fit inside its spacious wash chamber. Eco-Clean achieves outstanding results through a combination of high pressure spray, heat and motion. The entire procedure takes place in a single automatic cycle—and in a single chamber. In the process, Eco-Clean reduces environmental impact and lowers operating costs by recirculating the cleaning chemicals.

Eco-Clean has no external moving parts, and it eliminates direct employee exposure to the cleaning process. It's economical to operate, and it helps shops maintain a clean operating environment.

Eco-Clean's easy-to-use control panel has a timer, heat control, and on/off switch. The machine's compact footprint makes it easy to place in almost any shop. Stainless-steel construction minimizes maintenance and ensures a long, productive life. Low operating costs, versatile design features, and competitive pricing make Eco-Clean the ideal addition to any screen-printing operation.

STANDARD FEATURES

CERTIFICATION

- CE & UL compliant: Built to specifications established by the European Committee for Standardization® (CE) and Underwriters Laboratories® (UL)

DESIGN & CONSTRUCTION

- All stainless-steel construction

PARTS LOADING

- Door opens wide to simplify loading and unloading

WARRANTY, SERVICE AND SUPPORT

- 24-hour hotline is staffed 365 days a year
- Access to M&R's Training Center
- One-year limited warranty
- Parts & supplies are available online at store.mrprint.com

OPTIONS

ECO-WASH

- Cleans ink residue quickly and completely
- Proprietary formula was designed and optimized for use with Eco-Clean

SPECIFICATIONS

	Eco-Clean
Electrical Requirements ¹	208/230V, 1 ph, 55 A, 50/60Hz, 12.6 kW
Overall Size (L x W x H) ²	133 x 102 x 180 cm (52.5" x 40" x 71")
Shipping Weight	454 kg (1000 lb)

¹ If incoming voltage differs from the voltage(s) listed in this brochure, calculate amperage accordingly. Other electrical configurations are available: Contact The M&R Companies for details.

² Custom configurations may be available: Contact The M&R Companies for details.
